

Hosted business-class email

Do you have reliable access to your email from wherever the day takes you? Are you concerned about privacy issues with your email? Is your IT staff burdened with having to do more with fewer resources?

No matter how you run your business, Microsoft Hosted Exchange can help. With Exchange, you get best-in-class hosted email, calendar, and contacts on your PC, phone, tablet, and web browsers so you can have anywhere access to your information with easy IT management and enterprise-class security and reliability.

Be more productive

Give employees the freedom to work anytime, anywhere. With Hosted Exchange, they can maintain access to email, contacts, and calendars from PC, phone, or tablet—even when they don't have an Internet connection.

- Work from anywhere on the devices that you use most
- Simplifies collaboration with shared calendars.
- Works with a familiar user experience
- Say goodbye to downtime, be always up and running

Reduce your IT stress

Lighten your workload by hosting your email in the cloud with Hosted Exchange. We'll manage the day-to-day headaches of patching, updates, and back-end upgrades so you can focus on growing your business.

- Get business-class email without having to maintain your own platform
- Easily add or remove users and set email policies
- Manage your services through an easy-to-use web interface
- Eliminate upkeep costs with cloud-based email that scales as your business grows

Keep your data safe.

Get premium, always up-to-date malware protection. Our Hosted Exchange includes anti-virus and anti-spam to help you protect critical data with professional grade privacy and security features.

- Block spam and manages the servers in the cloud.
- Block external sources from sending email to internal distribution groups.
- Emails free from advertising.

Mail, contacts, calendars and files

Hosted Exchange is more than just an email system; it is a powerful collaboration tool. You can manage contacts, calendars, tasks and email whether you are at your desk or on the go. Because it is hosted in the cloud, you don't need to manage servers yet gain the benefits of backups and data security.

With Hosted Exchange you will increase staff productivity and drive costs down.
